## Special Information for Architects and Tile Contractors

We pride ourselves in the fact that we are the inventors and originators of Porcelain Enameled bathroom fittings. Beauty, sanitation and utility have been combined to give satisfaction. The lasting quality of our products has stood the test on ships and in seacoast cities where salt air and hard use affect all other makes of fixtures.

We can furnish a very large list of architects, builders and owners of hotels, hospitals and apartment houses all over the world where our fixtures are in use and giving excellent service.

If you wish to avoid a lot of petty annoyances such as crazing and cracking of china fixtures through settlements of buildings, dangerous breakage of glass bars, and thus worried with a lot of replacements, then use our improved Semi-Inset fixtures. They are more easily set, which means a saving of time and money.

We absolutely guarantee our products not to craze, rust or change color: an everlasting finish. We can match any color of tile and are prepared to make up colors when desired.

It will be found a decided advantage to set the fixtures after the entire tile work is finished, leaving openings for same. This affords protection from damage and loss of fixtures through theft. Should the contractor neglect to order his fixtures in time, the tile work can be completed and the fixtures installed later.

The tile contractor should make every effort to sell the entire requirements for the bathroom, furnishing robe hooks to be secured on the woodwork.

Usually in large contracts, such as apartments and hotels, there are always a number of maids' bathrooms without tile wainscot, where the surface type fixtures are required. We are prepared to furnish metal boxes which can be secured to the studding where the cement wainscot is used into which our Inset fixtures may be set.

Special attention is called to the flanges on our fixtures which cover the edges of all tile, thus saving the labor of rubbing the edges of tile smooth. There are no sharp corners in our fixtures for dirt to collect, all corners being rounded. Soap dishes are all self-draining, which prevents the soap from wasting.

Much money can be saved in labor when placing our fixtures in brick walls. Often, when the plaster is thick enough, no cutting will be necessary.

If you do not find the type fixture you require in our Inset Folder, write us your needs. We can furnish any of the surface type fixtures shown in our catalog, with Inset plugs, which means only one hole in the tile, or can be built in with the tile.

## MIRROR COMBINATION

*Furnished in 2 Sizes*

*Mirror*—American polished plate glass best quality, 1-inch beveled or plain. Fitted in frame with galvanized steel back, making easy replacements without marring frame.

*Mirror Frame*—Cast aluminum (one piece) light in construction with no welds, 1⅛-inch wide moulding. Finished with several coats of special pyralin celluloid enamel, being properly rubbed between each coat.

*Electric Light Bracket*—Cast aluminum (same finish as frame) fitted with brass adjustable attaching plate for standard electric outlet box. Shade, opal glass attached with 3 thumb screws.

*Shelf*—Plate glass special moulded edge 5″ wide x ¼″ thick. Slides from brackets very easily for cleaning.

*Brackets*—Cast iron porcelain enameled, tumbler holder or soap dish, can be detached or interchanged. Can be furnished with two tumbler holders or two opal glass soap dishes, such as B-53 soap dish and ring or as illustrated—towel bar ¾-inch steel tubing, same as B-58 bars.

*Notice*—Brackets, shelf and bar can be furnished for attaching to other style mirror or mirror with recess below.

*See price list for dimensions*

GENUINE TRADE ·SNO-WITE· MARK ENAMEL

No. 35

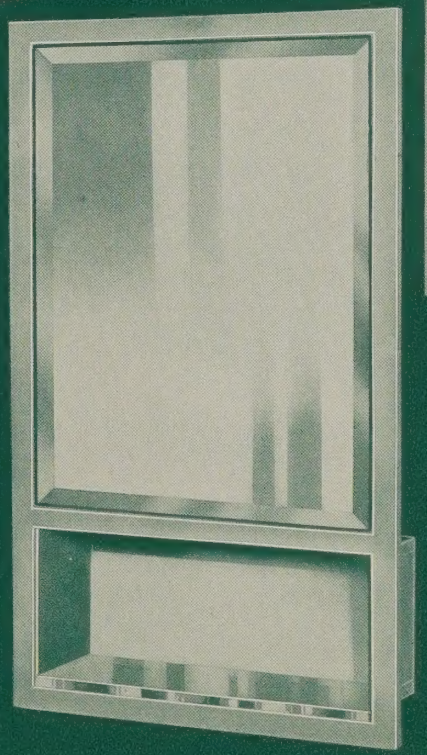
## RECESSED SHELF MIRROR

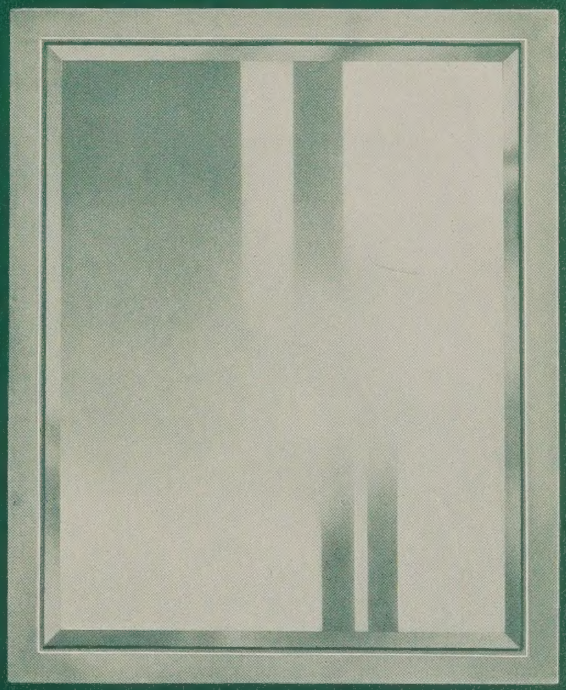
*Furnished in 5 Sizes*

Mirrors best quality polished plate glass, furnished in plain or one-inch bevel. Frames same as regular mirrors.

Recess mirror shelf made of 20-gauge steel, welded at corners, same finish as frame and furnished with $\frac{5}{16}$-inch opal glass plate in bottom. Furnished for installation on pipe shaft opening or wall, with four capped head wood screws unless otherwise specified. This fixture can also be installed on fireproof walls with concealed attachments.

*See price list for dimensions*





## MIRRORS

*Furnished in 16 Sizes*

Mirrors best quality polished plate glass, furnished in plain or one-inch bevel.

Frames made of 1″x½″ brass moulding, securely soldered at corners and covered with several coats of special celluloid pyralin enamel, being properly rubbed between each coat.

Backs of frames 20-gauge galvanized steel, fastened securely to frame with screws.

Mirror can be hung horizontal or vertical on any wall by means of concealed slotted hangers in back which leave no screws in sight.

*See price list for dimensions*

### Galvanized Metal Boxes

| | | Each |
|---|---|---|
| A | 1¼″x1¾″x1¾″ deep for all inset hooks and I-246, I-269, I-279, I-299, I-230, I-241, I-242, I-258, I-259, I-298 | .40 |
| B | 1¾″x3¼″x1¾″ deep for I-305, I-360, I-341, I-355, I-358 | .50 |
| C | 3¼″x4½″x1¾″ deep for I-247, I-255, I-347 | .60 |
| D | 3¼″x6½″x1¾″ deep for I-250, I-257, I-288, I-350, I-287, I-252, I-452, I-456 | .65 |
| E | 6¼″x6¼″x1¾″ deep for I-256, I-289, I-356, I-389 | .70 |
| F | 9½″x4¼″x1¾″ deep for I-253, I-254 | .90 |
| H | 4½″x5½″x1¾″ deep for I-286 | .65 |
| | 2¾″ x 5½″ x 1¾″ Deep for I-388-I-357 | .65 |

Special recess metal boxes for installing inset type trimmings in cement plaster or common plaster walls.

These boxes should be securely nailed or framed into desired locations in bathroom walls during construction of building.

Trimmings are usually set after plastering is completed or at the same time tile floors are being laid.

All metal boxes are made of 18 gauge galvanized steel and should be ordered by letter numbers.

Metal boxes can be secured for 400 and 500 line. Prices upon application

### New Additions to 200 Series Inset See Plate No. 19

| | | |
|---|---|---|
| I-281 | Lavatory Soap Dish, solid design, self drain. Tile opening, 3″x4¼″x2″ | 2.00 |

All cabinets * carried in stock, balance made to order at short notice. Heavily covered with PYRALIN ENAMEL hand rubbed between coats.

**Effective October 1st, 1926**

# SNO-WITE MIRRORS AND COMBINATION MIRRORS

Many well appointed bath rooms with expensive plumbing, beautiful tile and elaborate trimmings, are completely ruined by the installation of a cheap mirror surrounded with wide wood mouldings.

"Sno-Wite" mirrors are constructed to last a lifetime, made of best grade American plate glass with metal backs and brass moulding securely soldered at mitered corners. Our finish being many coats of special pyralin celluloid enamel, rubbed smooth between each coat and in perfect harmony with other "Sno-Wite" trimmings.

Our mirror with recess shelf below is especially adapted for very compact bath rooms and apartment hotels where the lavatory shelf is required, but through lack of proper space it should be recessed into the wall.

We very recently developed our beautiful combination mirror with electric light attached and special moulded edged shelf below. This fixture has already won favor with leading architects, being specified and installed in many noted hotels.
